

Battery Charger

Introduction
Battery charger is applied to:
3.6V/3.7 V Li-Ion/IMR/INR/CR
10440/14500/14500/16340/17335/17500/17670/
18350/18490/18500/18650/18700/20700/21700/
22650/25500/26650
2.1 V Ni-MH/Ni-CD
AAAA/AAA/AA/AA/SC/SC

Warning: The battery charger cannot charge protected 20700/21700 batteries.

Appearance & Interface

No.	Function	Description
-----	----------	-------------

1	LCD Screen	Display battery and charging information.
---	------------	---

2 & 3	Indicators	Red: Self-examining/charging/activating. No Light: Power supply unconnected.
-------	------------	---

4	Button	Press the button to switch the display mode.
---	--------	--

5 & 6	Battery	Insert batteries in it.
-------	---------	-------------------------

7	Type-C Interface	Connect to power supply.
---	------------------	--------------------------
