

# HIKMICRO

HM-L029IR

IR Torch

HIKMICRO IR Torch is designed for use with HIKMICRO GRYPHON & GRYPHON LRF series. Infrared Illuminator is completed with additional illumination of the observation objects by infrared rays when using devices in low light conditions or in complete darkness.

### **Key Features**

Identify the observed object more accurate and in detailed.

### **Related Products**

GRYPHON & GRYPHON LRF Series: GH25/GH35/GQ35/GH25L/GH35L/GQ35L

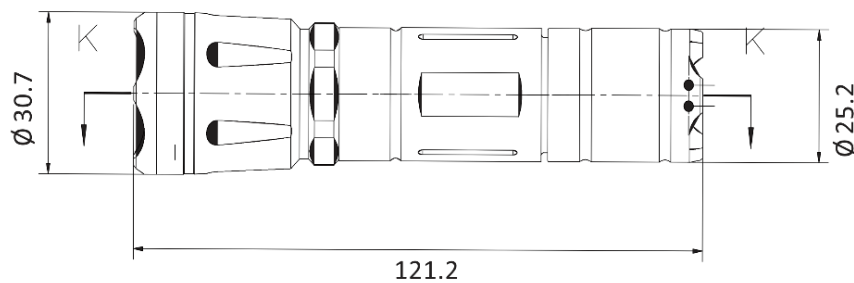

## ▪ Specification

| Power Supply                |  |
|-----------------------------|--|
| Power                       | By battery   |
| Battery Type                | HIKMICRO HM-3632DC                                 |
| Battery Operating Time      | Up to 5.5 h  |
| Capacity                    | 3.2 Ah   |
| General                     |  |
| Operating Temperature Range | -20°C to 50°C (-4°F to 122°F)                      |
| Weight                      | 95 g   |
| Body Material               | Metal & Plastic                                    |
| Dimension                   | 121.2 mm × 30.7 mm × 25.2 mm (4.8" × 1.2" × 1.0" ) |
| Infrared Illuminator        |  |
| Emitter                     | LED  |
| IR Optical Power            | Up to 850 mW                                       |
| IR Wavelength               | 940 nm   |
| Irradiation Distance        | Up to 150 m  |
| Beam Angle                  | 13°  |
