2.2 Fixed Occasional Image Freezing When Auto Power Off Enabled 2
2.3 Optimized Angle Compensation Variable in Ballistics Calculation 2

Chapter 1 Introduction

This document introduces new features and optimizations in V6.0.3 firmware version of the product.

Version Information

Item	Description
Firmware Version	V6.0.3 Build 251016
Models	A40EL A40E
Mobile Client	HIKMICRO Sight, V2.6.7 and above

Chapter 2 Functional Optimizations

2.1 Fixed Occasional Image Freezing During Zoom Operation

With this update, the device will no longer freeze unexpectedly when adjusting the zoom level, ensuring smoother and more reliable zoom functionality during use.

2.2 Fixed Occasional Image Freezing When Auto Power Off Enabled

With this update, enabling the auto power off feature will no longer lead to occasional device freezes, improving overall system stability and user experience.

2.3 Optimized Angle Compensation Variable in Ballistics Calculation

The ballistics calculation function now features an enhanced angle compensation algorithm, delivering more accurate and reliable results when the shooting angle changes.
