Chapter 1 Introduction

The CHEETAH & CHEETAH LRF series digital day & night vision scope/Clip-on can perform in all ambient light. It has an advanced HD sensor and a high resolution OLED display, which provides full-color clarity in daytime and classic black & white viewing at night.

The device meets the needs of professional hunters who value traditions and seek technological superiority. The device is applicable for scenarios such as field and forest hunting, hiking, and rescuing.

This document introduces new features and optimizations in V5.5.88 of the products.

Chapter 2 Optimizations

HIKMICRO CHEETAH & CHEETAH LRF series digital day & night vision scope/Clip-on have been optimized to improve your experience.

2.1 Hotspot Optimization

In this version, the first time users enter the device interface, they will choose whether to change the hotspot password.

- OK: If choose OK, the device will show you a random 8-digit password.

- Cancel: If choose Cancel, the password will remain the Serial No.

Note: During usage, whether you choose OK or Cancel, once you restore the device, the password will be restored to a random 8-digit password.
