# Chapter 1 Introduction

HIKMICRO FALCON series handheld thermal monocular is equipped with high-sensitivity IR detector, and adopts advanced thermal imaging technology, to get clear view in poor visibility or dark environment.
It helps to view the target and measure the distance. It can aim at the moving target and meet the outdoor condition. The device can be widely used in searching and rescuing, hiking, travel, etc.
This document introduces new features and optimizations in V5.5.86 of the product.
